## **Automotive Technician Wanted**

### **About the Job:**

We currently have an opening for an Automotive Technician. This position involves working in a fast-paced service environment with a focus on performance parts installation, custom parts fabrication, engine swapping, engine building, and advanced electronics installations. Our technicians must feel confident servicing every major system on a variety of different model vehicles. Welding and engine building experience are assets. Preference will be given to active members of the automotive community.

### **Specific Responsibilities:**

- Diagnose and resolve performance-related customer complaints
- Install aftermarket products wherever required (e.g., body electronics, suspension, brakes, engine mechanical, engine electrical, etc.)
- Complete engine work including removal & reinstallation, disassembly & reassembly
- Occasionally fabricate customized components using our machine shop
- Assist in advising customers when needed
- Represent the shop both on and off-site at events and shows in a professional manner

### **Requirements:**

- 2+ to 5 years work experience in an automotive service environment
- Must have a valid G-Class license
- Must have own tools
- Ability to work in a time-sensitive fast-paced environment
- Ability to work occasional overtime with little advanced warning
- Ability to lift heavy objects, walk and stand for long periods
- Ability to positively contribute in a small-team environment
- Formal technician training an asset
- MIG & TIG welding experience an asset
- Fabrication experience an asset

### **Extra Information:**

In addition to a competitive salary and benefits package, team members can expect to enter an exciting workplace where high performance vehicles are built, tested and delivered everyday.

Please forward your resume to 115 Limestone Crescent, North York, ON, M3J 2R1 or send an email to [MK3@purauto.com](mailto:MK3@purauto.com). While all applications will be considered, only those selected for interviews will be contacted.
